PRODUCT DESCRIPTION

This sturdy folding crate comes from our newest series of folding crates and is made of high-quality plastic PP. The outside dimensions of this crate are 600x400x115mm and the inside dimensions of the crate are 576x376x106mm with a capacity of 23 litres. The crate has a weight of 1.35 kilograms. One VPE is 375 crates. The load-bearing capacity of this folding crate is 10kg. The crate has a closed base and perforated sidewalls. All folding crates from this series have been developed with an eye for extra safety, hygiene, durability and efficiency. The ergonomic handles, secure snap fasteners but certainly also extra content because of the specially made grids in the side walls. They can also be stacked crosswise and are suitable for automated environments. In short: this crate is more robust, more efficiently stackable and more ergonomic to

use than a standard crate.
