### PRODUCT DESCRIPTION

This durable stacking container comes from our latest series of nestable and stackable crates and is made from high-quality plastic HDPE. The outside dimensions of this crate are 600x400x100mm. The inside dimensions of the crate are 561X361X88.5mm with a capacity of 18.5 liters. The crate has its own weight of 880gr. The crate has a perforated bottom and perforated side walls. All folding crates from this series have been developed with an eye for extra safety, hygiene, durability and efficiency. Think of the ergonomic handles, secure snap fasteners, but certainly also the handy color indications for convenient stacking or nesting of products. One VPE is 188 crates.
