PRODUCT DESCRIPTION

Isothermal Lining - 540x365x300mm - For Tote Box 65202

Description.

Blue isothermal lining for the [attached lid tote box \(65202\)](#). The dimensions of the lining are 540 x 365 x 300mm, tapering to the bottom with dimensions of 495 x 320 mm. The cover consists of aluminium plate with insulating material of PE plastic, laminated with a polyester fabric on the outside. In addition, the cover is provided with a 40mm black PP plastic band and the cover can be closed completely by Velcro. The isothermal lining is nestable and has a weight of only 600 grams.

With the isothermal lining you can transform a regular plastic container into a handy way to keep products cooled for several hours and to transport them easily. If you want to keep larger quantities of goods cool during transport, Rotom also offers [isothermal roll containers](#).
