Product	new, for rent
Type	Nesting boxes, Distribution boxes, Boxes with lid

PRODUCT DESCRIPTION

Nestable and stackable container made of transparent plastic with a 2-part hinged lid. The container has the outside dimensions 600x400x320mm and the inside dimensions are 540x367x302mm. The side walls and the base of the container are completely closed with a capacity of 60 litres. The carrying capacity of this lid box is 25kg. And you can stack up to 4 loaded boxes on top of each other, the load capacity of the stack is 100kg. This lidded tote box can be used within a temperature range of -20°C to +40°C. When the lid is closed you can stack the boxes and with an open lid these plastic boxes can be nested, saving you space during transport or storage. The nestability or space saving if you have these lid boxes nested in storage is 74%.
