PRODUCT DESCRIPTION

R-KLT 6429 stacking box made of PP plastic is an extra-strong box with reinforced walls and a closed base with 16 small feet. This makes it extremely suitable for industries with heavier products such as the automotive / automobile industry. The outside dimensions are 594x396x280mm and the inside dimensions are 544x364x242mm according to VDA standard. The capacity of this R-KLT 6429 stacking box is 65.86 litres. The vertical ribs on the walls make this R-KLT 6429 stacking box stronger than regular Euro standard stacking boxes and make it easy to grab and pull in automated logistics systems. The R-KLT 6429 stacking box has a smooth base on the inside and is therefore easy to clean. This KLT container is stackable and on 1 long side the container is provided with a label holder. The most efficient way for transport and
