PRODUCT DESCRIPTION

Blue barrel with a capacity of 150L. The dimensions are 495x395x960 mm. The plastic storage vessel is made of blue virgin HDPE material. The lid is removable and is closed by a steel clamping ring. This hoop is made of galvanized sheet iron. The weight of the barrel is 5.1 kg and the weight of the lid is 0.8 kg. The weight of the steel clamping ring is 80 grams. A total of 3 Blue barrels of plastics can be stacked on top of each other. The wide-necked barrel is waterproof and suitable for various liquids. However, this sturdy plastic barrel can also be used for storing, for example, fertilizers, seeds or animal feed! Do you work in the chemical or pharmaceutical industry where hazardous or toxic substances have to be stored? Then you know better than anyone that leakages are a major risk and that this can have dangerous consequences. By placing this barrel on a drip tray, you prevent health risks for employees, you save money on cleaning costs and you prevent damage to a building or to equipment.
