Outside dimension height	635
Carry weight	250

PRODUCT DESCRIPTION

Euro system roller with two loading surfaces, the dimensions are 610x410x600mm. The loading surfaces consist of MDF with beach structure and have the dimensions 610x410mm. The bearing capacity of the system roller is 250 kilograms. The weight is 19 kilograms and the diameter of the wheels are 125mm. The product has four wheels, two of which are steering wheels, covered with a flexible substance so that products can be transported silently during transport. The support platforms are built on a metal frame with two wooden blades, these are easy to clean. The product is ideal for fast transport of small loads within warehouses.
