**PRODUCT DESCRIPTION**

**Hand truck stair climber from Matador**

A very sturdy, manual stair climber hand truck from Matador with which you can safely get up to 150 kg on the steps. Thanks to a smart system with rotating wheels, this is a breeze. The dimensions of this stair climber are 440x585x1270 mm and the dimensions of the pitch of this hand truck is 400x157 mm. The wheels are made of TPU, a relatively soft material that looks a lot like rubber and is streak-free and noiseless. So you don't have to be afraid of damaging the environment. Stair climbers are mainly used to move washing machines, refrigerators, boxes and cabinets.

At only 8.5kg, this is a relatively light hand truck. Electrically assisted stair climbers quickly run into the higher costs; With this manual model,

you will have a similar result for only a tenth of the price in many cases. The 6 rotating wheels, in two sets of 3 pieces per side, ensure that you get your load up with little effort. The wheels have a diameter of 160mm and are 38mm in diameter.
