Material	Aluminium
Status	New
Outside dimension length	850
Outside dimension width	480
Outside dimension height	1000
Carry weight	250

PRODUCT DESCRIPTION

This table trolley is made of aluminum and plastic. The dimensions are 850 x 480 x 1000 mm and the dimensions of the shelves are 680 x 450 mm. The push handles are high and the serving trolley has a maximum load capacity of 250 kilograms. The warehouse trolley is made in such a way that each loading surface can carry 80 kilograms. The distance between the loading surfaces is 275 mm. This car is extra light due to its own weight of 11.5 kilograms. The distance between each platform is 275 mm. The rubber wheels dampen noise and two of the four wheels have a brake. This platform trailer is of top quality and is suitable for maneuvering through narrow aisles.
