PRODUCT DESCRIPTION

This table trolley is made of aluminum and plastic. The dimensions are 1100 x 520 x 1020 mm. The push handles are high and the serving trolley has a maximum load capacity of 250 kilograms. The warehouse trolley is made in such a way that each loading surface can carry 80 kilograms. This platform trailer is extra light due to its own weight of 16.5 kilograms. The distance between each platform is 275 mm. The lowest plateau is at a height of 200 mm, the middle plateau at a height of 525 mm and the highest plateau at a height of 864 mm. The rubber wheels dampen noise and two of the four wheels have a brake. The table trolley has 2 fixed wheels and 2 swivel wheels. This serving trolley is of top quality and is suitable for maneuvering through narrow aisles.
