TECHNICAL DATA

Product	new
Status	New
Outside dimension length	985
Outside dimension width	640
Outside dimension height	350
Carry weight	250

PRODUCT DESCRIPTION

Rolling platform that is made and executed in an innovative way. A flat transport cart with handles on the side so that it is easy to lift and can be stored on its side. Effortlessly takes thresholds and curbs up to 8cm because it is equipped with 6 wheels with pneumatic tires and because the 2 middle wheels are lowered, this also ensures that this rolling platform can rotate around its own axis with a minimum turning circle. The wheels have the following dimensions: diameter 260x85mm, the axle has a diameter of 25mm. The maximum carrying capacity of the super hound is 250kg. The weight of this rolling platform is 26kg. The super hound is made of a 2-layer sandwich plastic tray (ABS / TPS). This makes it extra strong and impact-resistant, the sides are provided with a soft finish and this prevents damage to doors and frames. The rolling platform is equipped with a drawbar of 870 mm with 3 positions stepwise and one-hand operation via push button. When not in use, the drawbar and push button are sunk into the deck of the rolling platform. Note: The pictures show how the sidebars fit on to the Super Hound, but

these are not included and need to be purchased separately if you require them. You can purchase the sidebars here P/N 74365.

APPLICATIONS The super dog is often used as a rolling platform by professionals in the following professional groups: - Moving industry - Piano transport - Interior construction - Installation and insulation industry - Rental companies for private individuals
