### TECHNICAL DATA

Status	New
Outside dimension length	680
Outside dimension width	400
Outside dimension height	143
Carry weight	150
Bottom	Plastic
Product	new
Type	Dolly

### PRODUCT DESCRIPTION

Rolling platform that is made and executed in an innovative way, flat transport trolley that can be linked to each other both in length and width. Equipped with four streak-free and low-noise rubber castors with a diameter of 75mm. The maximum load capacity of this rolling platform is 150 kilograms. The weight of this rolling platform is 4 kilograms. The Joint Carry rolling platform is made from recyclable polypropylene with an anti-slip platform. The rolling platform has a low starting resistance because its own weight is relatively low and the handle that can be ordered separately provides a good force distribution.
