PRODUCT DESCRIPTION

Platform trolley 970x620mm - Aluminium

Aluminum platform trolley with dimensions of 970 x 620 x 1125mm. The dimensions of the platform are 910 x 620mm and the height of the platform is 240mm. The folded dimensions of the platform trailer are 650 x 350 x 1130mm. The load capacity of this system trolley is 400kg and its own weight is 11kg. Two castor wheels (130 x 35 mm) are attached to the front of the system trolley and the platform trolley is fitted with two fixed wheels (160 x 35 mm) at the rear. The non-marking solid gray rubber compound tires offer 20% less resistance. The wheels and swivel joints are fitted with ball bearings and the cast aluminum rims are super light and super strong! The cart is provided with a handle that facilitates the use of the cart. The height of this is according to European standards. The four different positions of the handle are easily adjustable: braking, walking, lifting and the folded position. The handle is

also equipped with an integrated braking position on both rear wheels. The high platform provides better ergonomics. The collapsible system cart is equipped with an additional side and front tube for securing the goods delivered by a tension strap and the cart is also provided with a non-slip surface. In addition, the plateau is reinforced with carbon fiber for a high resistance!
