Carry weight	400

PRODUCT DESCRIPTION

Aluminum platform truck with dimensions 750 x 490 x 1115 mm. The dimensions of the plateau are 750 x 490 mm and the height of the plateau is 240 mm. The folded dimensions of the platform trailer are 550 x 350 x 1120 mm. The load capacity of this system trolley is 400 kg and its own weight is 9.4 kg. Two castor wheels (130 x 35 mm) are attached to the front of the system trolley and the platform trolley is fitted with two fixed wheels (160 x 35 mm) at the rear. The non-marking solid gray rubber compound tires offer 20% less resistance. The wheels and swivel joints are fitted with ball bearings and the cast aluminum rims are super light and super strong! The cart is provided with a handle that facilitates the use of the cart. The height of this is according to European standards. The four different positions of the handle are easily adjustable: braking, walking, lifting and the folded position. The handle is also equipped with integrated braking position on both rear wheels. The high platform provides better ergonomics. The collapsible system cart is

equipped with an additional side and front tube for securing the goods delivered by a tension strap and the cart is also provided with a non-slip surface. In addition, the plateau is reinforced with carbon fiber for a high resistance!
