PRODUCT DESCRIPTION

Collapsible metal attachment frame 1200x800x1600mm

Collapsible and stackable metal wire wall with dimensions of 1200 x 800 x 1600mm, suitable for euro and industrial pallets. The dimensions of the grids are 100 x 100mm. The pallet converter has a hinged window on the long side. Because this wall is collapsible, you can save space during return transport or in storage. If this metal pallet edge is placed on your pallet, you can easily stack another pallet on it, the maximum stack height is 3 pieces. The weight is 40kg and the maximum capacity is 750kg. The color is blue, RAL 5012.

Create a pallet box quickly by placing these collars on a 1200 x 800mm pallet. The collars are very flexible; you can easily fold them and store them to save space when not in use.
