### PRODUCT DESCRIPTION

#### Door transporter "Doorjack" 1315x236x244mm

Door transport for transporting, placing and hanging doors. The external dimensions of the "Doorjack" are 1315x236x244mm. With the use of "Doorjack" you can lighten the work when hanging doors and this work can be done more easily by 1 person. A door transporter has never been so versatile because, in addition to transporting, hanging and removing doors, it can also be used for the lying or standing storage of doors. With "Doorjack" these stored doors can be moved directly to the workplace by 1 person. This door transporter is equipped with 2 pieces of Ø 200mm castors at the front and 1 piece of Ø 100 mm castor at the rear so that it is easy to drive.

The external dimensions are 1315x236x244mm, and the base plate in which doors are placed has the size 300x84x82mm. The weight is 7.6kg and the maximum load capacity is 150kg.
