### **PRODUCT DESCRIPTION**

# Metal glass stand 2000x1000x2250mm - hot dip galvanized - new

High-quality metal glass stand, specially designed for the safe storage and transport of large and bulky (glass) products. With dimensions of 2000x1000x2250mm, it offers enough space for your valuable glass plates. This new and durable product is hot-dip galvanized, providing excellent protection against rust and corrosion. This allows it to be effortlessly placed outside, even under different weather conditions.

This product, also called glass / plate container, is equipped with doublesided loading, so you can easily load and unload glass plates. The sturdy construction with spoon guides at the bottom ensures that it can be moved effortlessly, even in confined spaces. With a maximum load
