PRODUCT DESCRIPTION

H3 HYGIENE ne pallet 1200x1000x160mm - with raised edge

A new, high quality of HDPE plastic material pallet. This pallet is provided with an open deck with raised edge. This raised edge ensures that plastic containers do not shift from the pallet. The dimensions are 1200x1000x160mm. This is the most prominent and widely used block pallet in the food industry used for the transportation of products with various shapes and sizes and easy to clean. The three solid wear slides the pallet with a maximum dynamic load of 1250 kilograms, a static load of 5000 kg, and the load when placed in a rack is 1000kg. This makes a very strong

PRODUCT SPECIFICATION SHEET

pallet suitable for carrying heavy loads and can be excellently used in the food industry or environments where HYGIENE ne is very important. These plastic pallets are export ready without any processing.
