PRODUCT DESCRIPTION

Foldable pallet box with a capacity of 1158 liters with extra thick walls, making them stronger and more durable than regular foldable pallet boxes. The outside dimensions of the pallet box are 1220x1020x1180 millimeters. The inside dimensions of this foldable pallet box are 1160x960x1040mm. In the folded state, the dimensions are only 1220x1020x300mm. The own weight of this

PRODUCT SPECIFICATION SHEET

folding pallet box is 34.50 kg. This foldable pallet box has 3 slides that you can click loose to save costs in storage and transport.

FOLDABLE PALLETBOX KEY FIGURES The dynamic carrying capacity of this foldable pallet box is 800 kg and the static carrying capacity of the pallet box is 1200 kg (1 + 3 stacked). This foldable pallet box can be loaded in a pallet rack provided with slides and can then carry 400 kg. The pallet box is made of 2 types of plastic: the pallet, lid and the slides are made of HDPE and the foldable walls (sleeve) are made of PPC. The temperature resistance of -10 to +40 degrees Celsius. The color of the sleeve is gray and the color of the pallet and the lid is black. Stacked 264 pieces fit in a standard loaded truck, namely 8 pieces on a pallet place, assuming 33 places in a standard trailer. Nested, 396 pieces fit in a standard trailer, namely 12 pieces in a pallet location and are based on 33 locations. The big advantage of these boxes is not only that they are foldable, but that the return is more efficient. The ratio is 6-1. With 6 full trucks with 2 high stacked boxes, only one truck is needed to retrieve them all (folded up).
